Week-5 Project Report on “BANK MANAGEMENT SYSTEM”

Problem Statement :

Develop a prototype of a Banking Information System in Core Java that provides a working preview of the key functionalities of a real banking system. The prototype should demonstrate the core features and flow of the system, showcasing its functionality and usability.

So I Continue working on the selected project . and now in this week I completed the **Mini statement , Pin change , Balance Inquiry , Exit .**

Following is the interface of these all page .

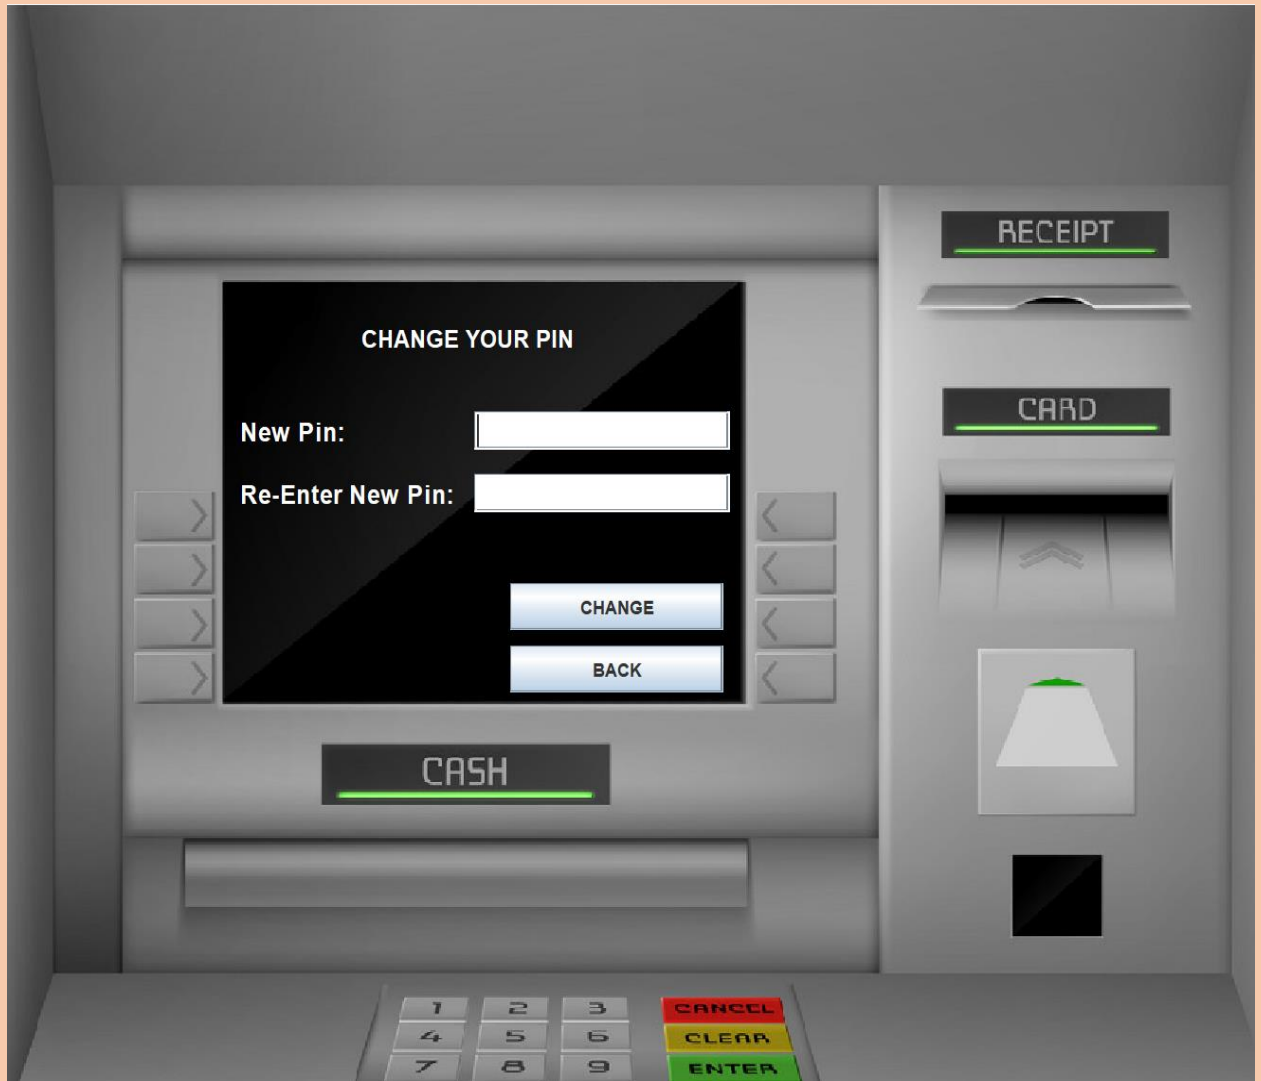

1. Below is the Mini Statement page :-

Mini Statement		
Indian Bank		

Tue Jun 27 18:19:07 IST 2023	withdrawl	500
Thu Jun 29 14:28:30 IST 2023	Deposit	169000
Thu Jun 29 14:28:45 IST 2023	withdrawl	100
Fri Jul 07 00:20:00 IST 2023	Deposit	10000
Fri Jul 07 00:20:56 IST 2023	withdrawl	9000
Fri Jul 07 00:21:20 IST 2023	withdrawl	500
Your Current Balance is Rs 167800		

Above is the page of or output of the Mini statement page . it Keeps the history of transaction of the corresponding Account .

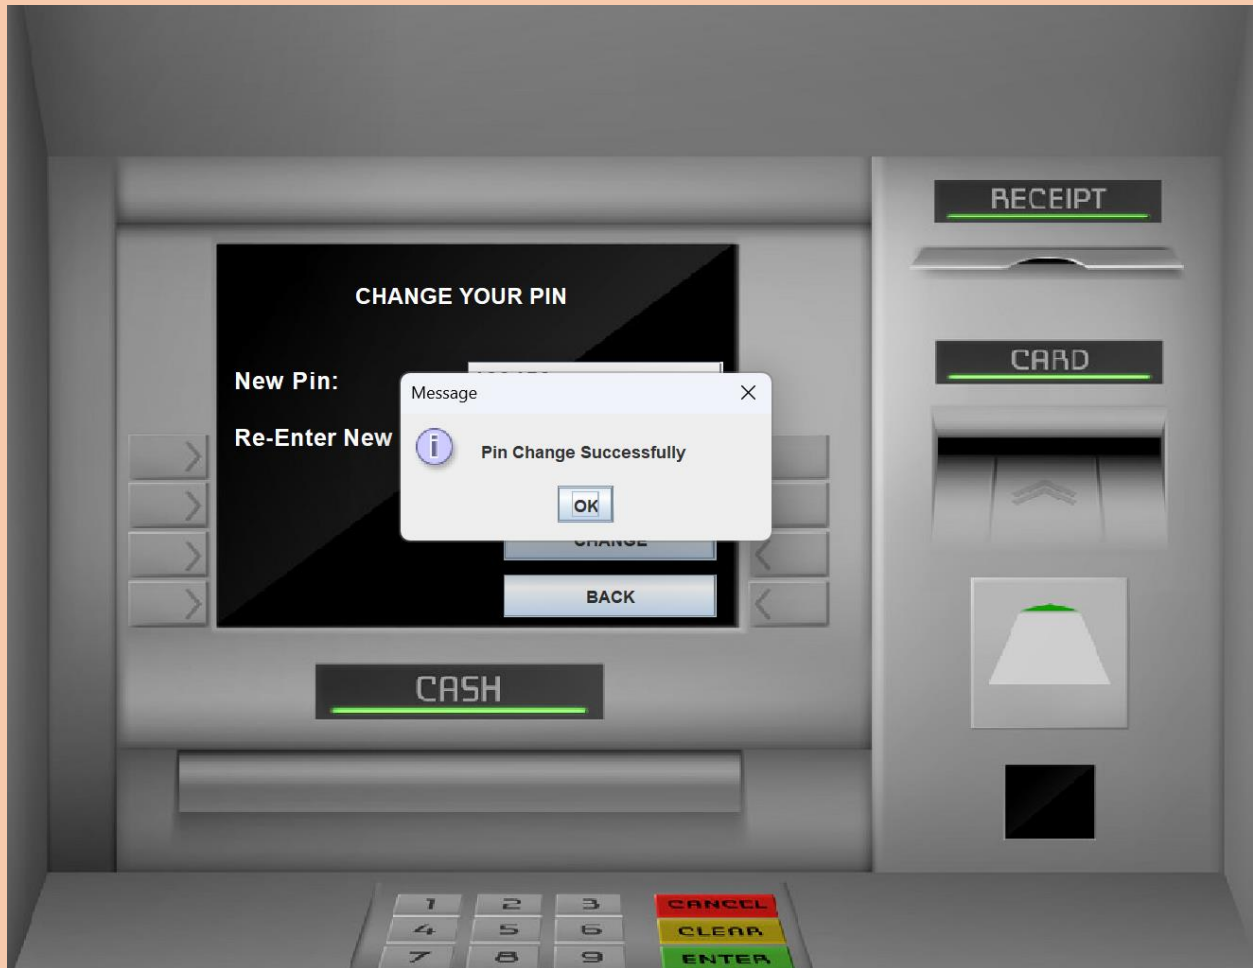

2. Pin Change page

Above is the UI of Password change interface .

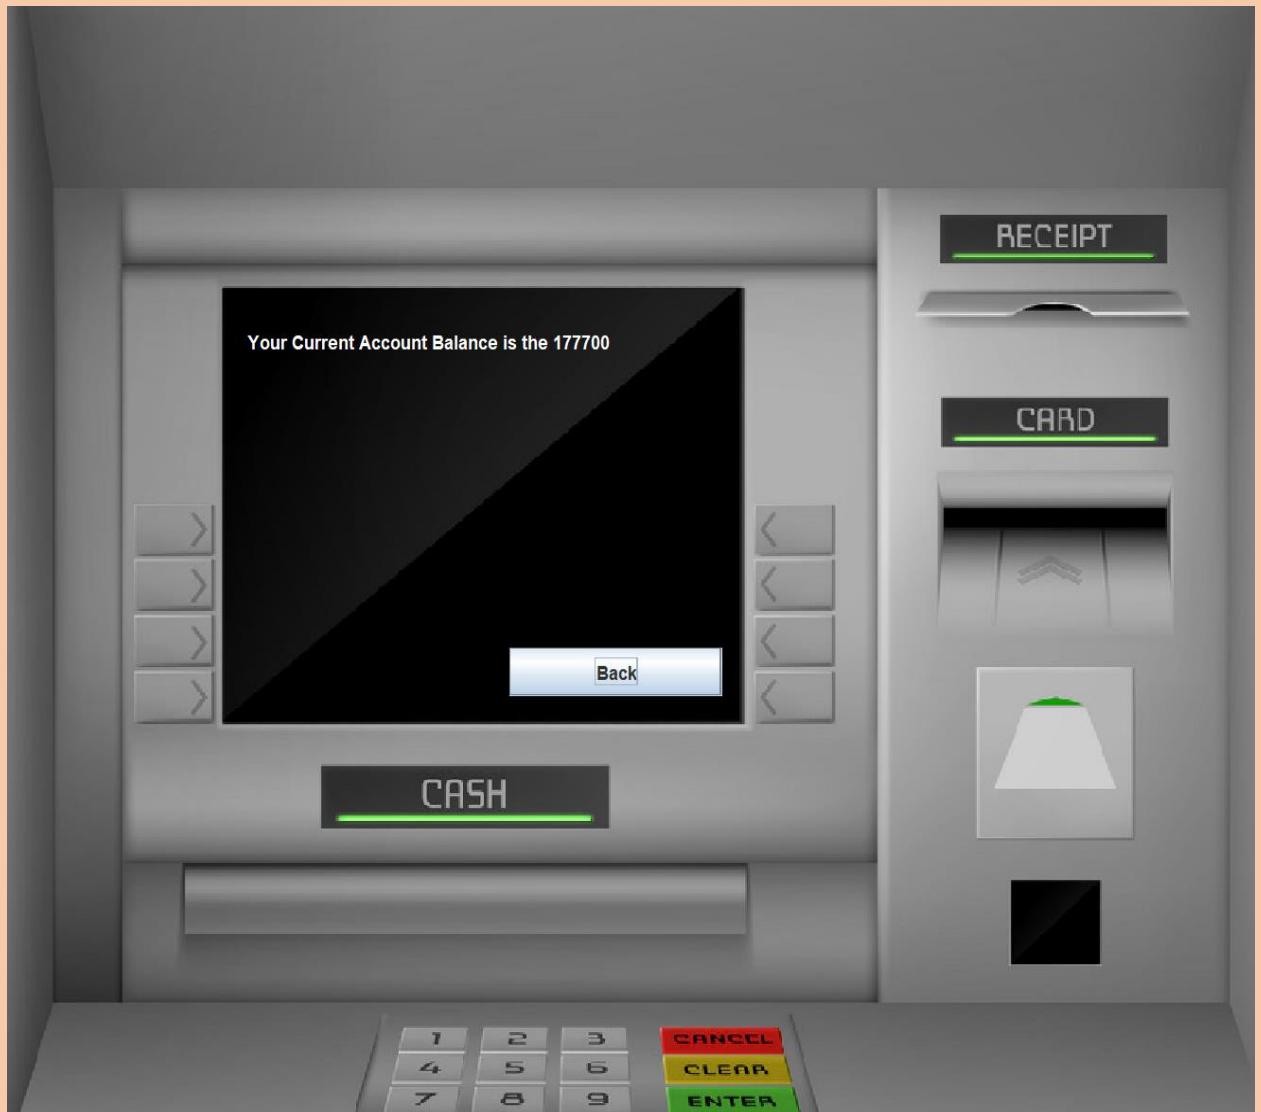

Here we can change the pin of that account . and for more confirmation , there is compulsory to keep the new pin one more times for more confirmation.

Below is the interface of after keep the new pin change.

After changing the Pin change . It show one message of confirmation of pin change as “Pin Change Successfully” .

3. Balance Quiry

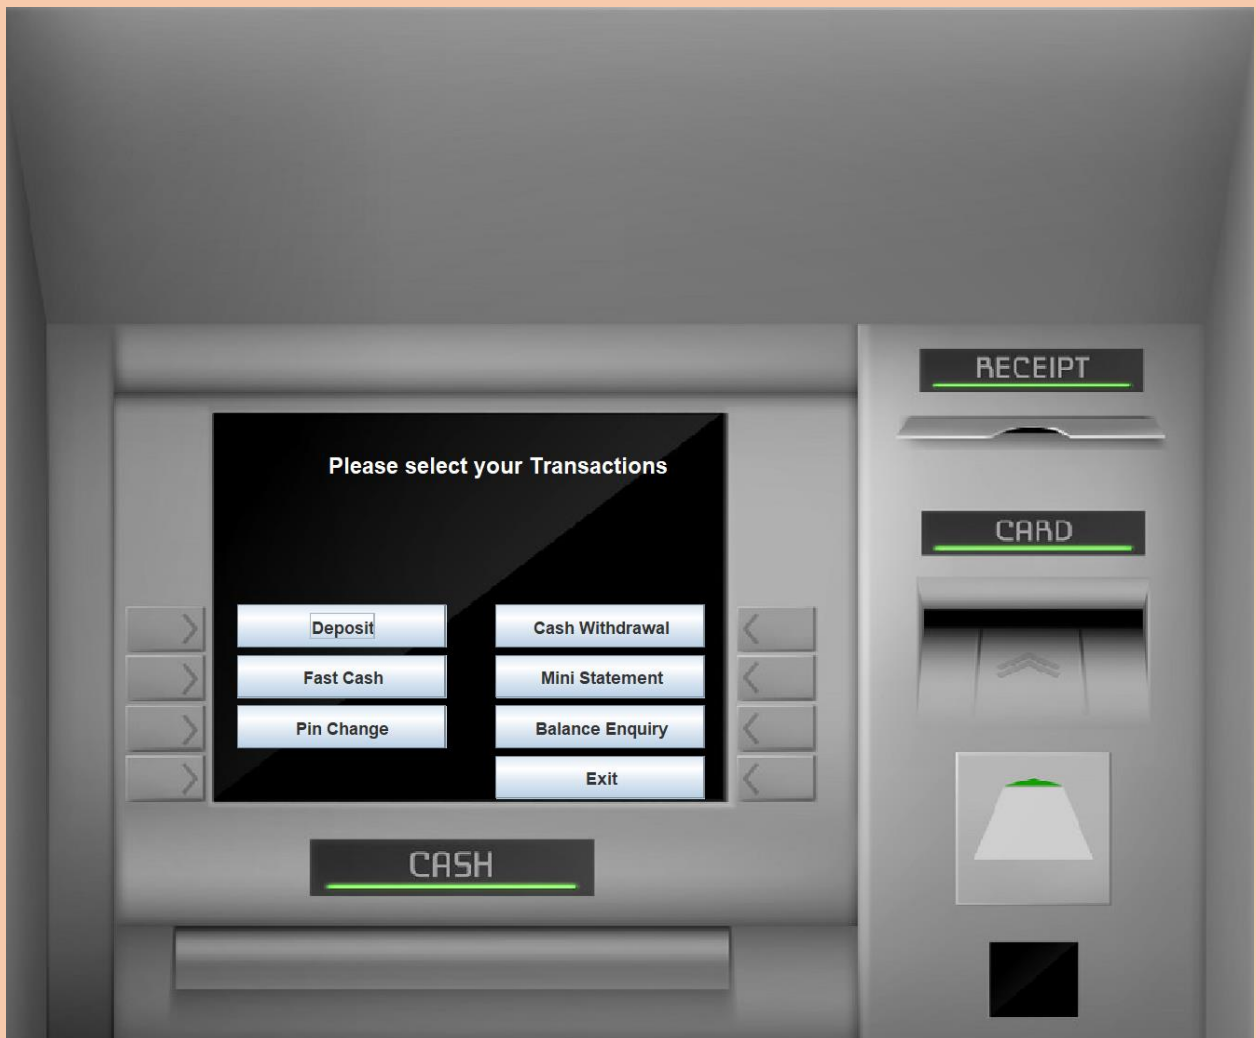

Above is the interface of Balance enquiry . Generally it provides the balance quiry information after clicking the balance quiry . and show the Account balance .

And

4. Exit

Where if we want to exit then just you can click on the Exit button .

Below is the interface of Exit .
