Progress Work:

1. First I Collect the information About upSkill and how and what is the Rules are with this internship .Because It is very important to know about the platform where we are going to work ,so .
2. After that I Start learning Regarding My Core Java and Get the Knowledge from upskill and from Different Platforms also .
3. Then I set My mindset to select the Project and the way how I am going to execute the practice on upskill.
4. And according to my timetable I completed my week 1 successfully .
5. I learnt a lots of things from this platform . it really very helpful.
6. Step by Step I learnt these all materials which was provided and also I worked on that based by Solving the real world problem .

7. In learning process I got one certificate in the process of solving my problem or my doubt .
8. After Getting Idea I plan to go for Select the project .
9. So I select the project from the given "BANKING INFORMATION SYSTEM " .
10.   And Start working on this project .
11.   I Started Collecting the information the element I have to add in that project . and I collect also.
12.   I learnt many things and I can feel that I get more thing in week 1 itself .

Thanking To :
